Apprentice Case Study

What led you to apprenticeship training?

The details of the course showed a very thorough training programme with lots of support

What have been the benefits of Apprenticeship training?

Being able to learn while on the job was really valuable. I was able to apply what I had learned during training days to real situations in school.

What impact if any has training had on your knowledge, skills, professional behaviours, career progression

I feel much more knowledgeable on different ways to help children learn. I feel I have a real bank of techniques for any situation. The training days gave me confidence when discussing with other members of staff as my cohort often discussed topics and ideas with each other.

How would you describe the quality of the training and the support you have received from Ebor?

The training I received on this course was brilliant. I felt very prepared for so many different situations. The professionals who delivered my training were very knowledgeable and were really engaging. They were also always willing to answer questions and queries.

What advice would you give others considering an apprenticeship?

Go for it! Starting my career in education as an apprentice was incredibly valuable. I was taught so many things that I still rely on 5 years later. I would say it's important to be prepared to put in the work especially when completing the assignments.
