

Karen Marshall - Music Lead

Level 5 - Coaching Professional

Apprentice Case Study

“The course has really increased my confidence to be more self-reflective and also think about bigger pictures. I hope I am a much more effective leader, empowering people to do things for themselves, and working out the best solutions for them in a collaborative way. Following completion, I will be embarking on a post graduate course partly due to the course. It has reignited a love of learning within me.”

What led you to /attracted you to apprenticeship training?

I felt it would help me with my role, particularly in my Trust wide role but also in supporting non specialist classroom teachers to become more confident teaching music.

What have been/are the benefits of your Apprenticeship training?

The coaching course has helped me enormously in my professional work with colleagues but also more generally in my life. As a Mum of three adult children, it's helped me to parent in a more collaborative and encouraging way. It's also helped me in my teaching generally, to support students to find their own gifts, inspiration, and solutions. The tools are just wonderful for life generally.

How would you describe the quality of the training and the support you have received/are receiving from Ebor?

The support has been excellent from the delivery in the sessions from the expert training to the care around the course ongoing. SG is very supportive and conscientious in making sure you are fully aware of what you need to do and when. The encouragement is ongoing, and you are empowered to feel you can do it! The course is well organised by SH and also extremely exciting to do!

“Go for it, it's free training that will not only help you in your working life but also help you to grow as a person. I've made some lovely friendships along the way. The group I am in is super supportive and we've had some wonderful experiences together as we've embarked on the course. The material is very interesting and intellectually stimulating too.”
