Apprentice Case Study

What led you to apprenticeship training?

The opportunity to gain an accredited qualification linked to the role I was undertaking in school.

What have been the benefits of Apprenticeship training?

I did many tasks as a new SBP that I did not fully understand the purpose of prior to learning about them on the course. As I am a 'bigger picture person', understanding the 'why' is often the key to me succeeding. The training has therefore given me the 'why' and I have felt much more confident in explaining the importance of spending time on a specific task, or reinforcing compliance, to others as a result.

What impact if any has training had on your knowledge, skills, professional behaviours, career progression

It has given me much more confidence in my day to day role, and has made me more aware of the impact a largely non-child facing role in school has on the quality of education of the children. I have recently secured a new role in the Trust, which will see me support a cluster of schools as an Operational Business Partner. The course will definitely support my future development in this role, and give me the opportunity to use my skills across a number of settings.

How would you describe the quality of the training and the support you have received from Ebor?

The training has been excellent, with real-life and relatable assessments and learning activities, and with knowledgeable tutors and mentors to support and guide me through the programme. My school has been incredibly supportive of me undertaking this qualification.

What advice would you give others considering an apprenticeship?

I would advise them not to hesitate in signing up.

“The training has been excellent, with real-life and relatable assessments and learning activities, and with knowledgeable tutors and mentors to support and guide me through the programme.”
