

At school, we keep information about you safe, like treasure in a treasure chest!

Only trusted adults like teachers, people who work in the school, people we trust, parents and carers can see it.

We keep information about you, to keep you safe, keep you healthy, teach you and so we can contact your carers or parents.

We get this information from you, your parents or carers, people who work in the school and important people outside the school like your doctor.

Some information is removed when you leave the school and some information is kept by your school until you are 25
